

EZ Claw Sling

The **EZ Claw Sling** has a patented design that allows for adjustments on the fly for your air, electric or hydraulic hoses on the back of your truck.

Specifications:

- **Polyester webbing** protected by an ultraviolet inhibitor
- **Stainless steel** carabiner
- **Patented design** allows sling to lay flat and will not cut, crimp or compress lines

Advantages:

- 1 **Multiple Use:** Can be used to hang different types of hose assemblies, including 3-in-1, 4-in-1 and hydraulic lines.
- 2 **Field Adjustable:** Take the weight off the sling, loosen the knot and move the hose assembly as desired.
- 3 **Tangle-Free:** Keeps lines safely secure, preventing tangled lines at the back of cab.
